

Deep Six Dive & Watersports

COURSE MENU

ENRICHED AIR NITROX \$175

PADI's most popular specialty. Diving enriched air lets you safely extend your no-decompression bottom time which means more time underwater and shorter surface intervals. After you read the book and complete the chapter reviews, you'll attend one classroom session. Two open water dives are optional.

ADVANCED OPEN WATER DIVER \$280

Exploration, Excitement, Experiences. They're what the PADI Advances Open Water Diver course is all about. And no, you don't have to be "advanced" to take it-It's designed so you can go straight into it after the PADI Open Water Diver Course. The Advanced Open Water Course helps you increase your confidence and build your scuba skills so you can become more comfortable in the water. This is a great way to get more dives under your belt while continuing to learn under the supervision of your PADI instructor. This course builds on what you've learned and develops new capabilities by introducing you to new activities and new ways to have fun scuba diving. Includes five dives!

RESCUE DIVER \$250

"Challenging" and "rewarding" best describe the PADI Rescue Diver Course. Building on what you've already learned, this course expands on what you already know about how to prevent problems, and how to manage them if they occur. The fun part about this course is rising to challenges and mastering them. Most divers find this course both demanding and rewarding, and at the end, say it's the best course they've ever taken. Here's what you learn:

- Self Rescue
- Recognizing and managing stress in other divers
- Emergency management and equipment
- Rescuing panicked divers
- Rescuing unresponsive divers

Emergency First Response \$95

Take a step toward emergency preparedness and meet PADI Rescue Diver Prerequisites with Emergency First Response. As one of the foremost international CPR and first aid training companies. Emergency First Response gives you the confidence to respond to medical emergencies, not just in the diving world, but in your every day life with your family, friends, neighbors and co workers, too!

Performance Freediving Basic Freediver Course

You want to increase your breath-hold and your ability to dive deeper and stay longer. You aren't familiar with freediving safety or find yourself stuck in the 20-50 foot range. This is the class to take you to the next level! Even if you are an experienced freediver, the safety protocol and rescue procedures covered in this class are invaluable.

Here are some of the areas we will be covering:

- Safety and buddy procedures
- Equipment for snorkeling and freediving
- Proper breathing for freediving
- Techniques for snorkeling and freediving
- Confined water & open water skill development
- All pool and open water sessions include practicing rescue scenarios.
